Education

Bachelor's Degree in Informatics and Computer Science	Strathmore University	2017- 2022
---	-----------------------	------------

Experience

Software Development Engineer, Altair: [Aug. 2023 –Present]

- Working with Altair products to provide customizations to client problems.
- Created ML model in Rapidminer for regression and image classification problems.
- Used Panopticon software and Python scripts to host interactive dashboards on Panopticon as well as Python Tkinter.
- Coded python scripts to automate job submission, status checking and output retrieval from a PBS server.
- Imitated Digital Twin behaviour through Kafka, Panopticon and Altair Activate.

Android Developer Intern, Codelessian: [June. 2023 - July.2023]

- Designed a vocabulary app using Kotlin language.
- Implemented dependency injection using **Hilt**, **navigation component**, **single activity architecture**, **MVVM**, **firebase**, **view binding**, **Retrofit** library etc.

R&D Intern, Euler Motors : [Jun. 2022 – Nov.2022]

- Worked on the calculations of the Powertrain system of the 4-wheeler truck.
- Designed an autonomous delivery vehicle prototype from scratch and brought it into running condition.

Research Intern at IIT Goa, [ML project](#) : [\[Supervisor: Prof. Sudhakar Yoganail\]](#) [Mar. 2021 – Jan. 2021]

- Applied Deep Learning and Machine Learning Algorithms to get the flux values of CFD simulation.
- Created a dataset of 60k data entries (through an original code) and applied this dataset to an artificial neural network model.
- After rigorous optimization, I managed to improve the accuracy of the model to 99 percent.

ML Developer Intern, Robocom International : [Feb. 2022 – Apr.2022]

- Worked on face and voice manipulation using Deep Face Labs and Wav2lip library.
- Worked on diseased leaves image classification using transferable learning.
- Worked on data cleaning projects.

Projects

Call Notes app, [Code Link](#) :

- Designed a call notes app. Through this app, we can add/update notes to each individual call about what was discussed in the call.
- This app uses **Room Database**, **Recycler View**, **View Model**, etc. It further uses the content URI "Callog.Calls" for getting the call data.

News App, [Code Link](#) :

- Designed a news app using API calls, recycler view, and custom chrome tabs.
- Through this app, we get randomly generated news articles in recycler view format and can open the articles within the app only.

Human Action Video classifier, [Code Link](#) :

- Designed a CNN model that classifies basic human motions going on in a video.
- Used UCF 50 action recognition dataset (Video Dataset).

[Feb. 2020 – Nov. 2020]

FMAE GoKart 2021, IIT Goa Motorsports, [1st Position](#) :

- Served as the head of the Power Transmission System and designed an efficient transmission system for a go-kart.

[Jul. 2021 – Oct. 2021]

Skills

Computer Skills:

C++, Python, Kotlin, Data Structures and Algorithms, Machine Learning, Deep Learning, SQL, MATLAB, HTML, MS Word, MS Excel, MS Powerpoint, Canva, Adobe Illustrator

Software Skills:

Android Studio, Rapidminer, Panopticon, Solidworks, Ansys, AutoCAD

Relevant Coursework:

Introduction to computing in Programming (IIT Goa), Numerical Analysis(IIT Goa), Fluid Mechanics (IIT Goa), Thermodynamics(IIT Goa), Mechanics of Material (IIT Goa)

Positions of Responsibilities

Sponsorship Team Coordinator:	Head position of Sponsorship Team, led a team of 12 people to attain funds for our annual cultural fest CultRang'21. <u>[Jan. 2021 - June. 2021]</u>
Team Captain FSEV 21:	Led a team of 19 students to participate in the FSEV 2021. <u>[Mar. 2021 - Aug. 2021]</u>
Core member GoMyno:	Conducted various workshops and events for the coding club of IIT Goa. <u>(2020 - 2021)</u>
Student Mentorship Program:	Selected to mentor 4 students. <u>(2020 - 2023)</u>

Achievements

- Chit chat with chatbot (Cepheus, IIT Goa): 1st Runner Up

Extracurriculars and Hobbies

- Hosted several events in college (Cultural Fests, Independence Day, Republic Day, etc).
- Been a core member of the music, drama, and literary clubs of IIT Goa.
- Love reading, sketching, and watching movies.
